Principles and integrity are expensive, but they are among the very few things worth having.

Dan and Jeff,  
Attached are the new reports for each survey area. These will need a good review because we stripped a lot out from version 3 to address the committee's comments. For example, I'm not sure we listed all the proper organizations in the acknowledgement introduction.

Please make any final edits and let us know when it is okay to finalize these reports.  
Thanks...John
